FORMULA 2

MULTIVITAMIN COMPLEX

A daily multivitamin for long-term good health. Stress, a poor diet and exposure to pollutants can rob your body of essential nutrients. As a result, you may look and feel tired, get sick easily or have difficulty losing excess weight. Includes antioxidant vitamins C, E, beta-carotene and selenium, to help protect cells from free-radicals. Supplies B vitamins, including folic acid, B6 and B12, which are essential for energy production and help maintain healthy homocysteine levels that are already within a normal range for cardiovascular health. Studies show adequate folic acid helps prevent neural tube defects in pregnant women. Formula 2 Multivitamin Complex contains 133 mcg of folic acid per tablet.

FORMULA 3

PROTEIN POWDER SUPPLEMENT

Feed your body the proper balance of protein to keep your weight loss on track with this supplemental powder. It contains soy protein, which can help maintain healthy cholesterol levels. Contains whey protein, rich in cystine and methionine, which is vital to muscle development. Has no fat, sugar, carbohydrates, yeast, cholesterol, salt, lactose, sweeteners or artificial colours. Protein is an essential part of every cell in the body and is important in the role cells play in maintaining a healthy immune system, vibrant skin, strong hair and muscle growth. With muscle growth, comes an increase in lean body mass and heightened metabolism. Protein is also crucial to instilling a feeling of fullness and satisfaction in the body, making weight-loss efforts easier.

FIBER AND HERB TABLETS

Combining oat bran and selected herbs, which work together to encourage the efficient elimination of waste products from the food we eat, for a cleaner digestive system. A 'cleaner' digestive system can function more effectively and also helps to ensure better absorption of nutrients from the food we eat. Herbal Aloe Drink combines the goodness of aloe, with a delicious citrus twist for a healthy digestive system.

CELL ACTIVATOR

Helps to ensure your cells to absorb essential nutrients from the food and supplements you consume. Each cell in the body has to perform two main functions:
 1 - Releasing energy in the form of ATP through a series of biochemical processes known as the Krebs Cycle and Oxidative Phosphorylation.
 2 Using energy to perform its function, whether it is a brain cell, liver cell or lung cell. Without a regular supply of essential nutrients, this release of energy at a cellular level can be inhibited. Because of poor diet, poor digestion or high levels of stress energy production can be reduced and may leave our cells without sufficient energy to function properly.

Also shown positive effects against prostate, breast and pancreas cancer cell lines.

NITWORKS

The result of a collaboration between Herbalife and Nobel Laureate Dr. Louis Ignarro. Niteworks™ is a revolutionary dietary supplement containing an exclusive blend of L-Arginine and L-Citrulline with other ingredients that trigger the production of healthful *Nitric Oxide*. This is important, because as you age, production of Nitric Oxide, the naturally occurring compound which keeps blood vessels young and flexible, declines. And if cholesterol-laden plaque builds up in an artery, the opening shrinks, blood flow decreases and can even be blocked with formation of a clot, causing heart attack or stroke. Dilates & expands arteries and regulates cell function throughout the body. Improves circulation to the body's vital organs, including heart and brain.
